

# **150PPM LIP BALM**

## **SUPER MOISTURIZING**

## **ALL-NATURAL ANTIMICROBIAL**

**Use as a high silver content balm wherever desired**

**Silver is a natural antimicrobial. It kills viruses, bacteria, fungi/yeasts, molds and protozoa parasites for optimal lip and skin condition.**

**Our 150ppm Lip Balms have no competition for high silver content.**

**0.15 fluid ounce tubes**

**Colorless and tasteless**

**Firm consistency goes on light, lasts longer**

**Our USA origin all-natural ingredients contain no GMO's, synthetics or colorants:**

Safflower Oil

Bees Wax

Shea Butter

Mango Butter

Cocoa Butter

150ppm Silver Nanoparticles

**Our lip balms are best kept at a comfortable indoor living temperature.** To avoid melting of 150ppm Silver Lip Balm, don't let it get very hot, like in a parked car on a sunny day. Also, don't store it frozen or refrigerated. The product shelf life is in excess of one year from the manufacturing date, which is the lot number on the label. So, it will last longer than typical lip balms. If the lip balm seems to have deteriorated due to storage conditions, replace it with new product.

"This product is not intended to treat, diagnose, cure or prevent any disease", according to the FDA.
